
A. Approved IDPA Target for EUROPE (optional)

The European Target has been created to avoid the human anatomy which in some European countries is forbidden.

Total dimensions are expressed in centimeters.

Scoring Zones and values are the same as for the USA target.

The -5 score zones are the equivalent to the " miss " zones in USA.

PS. European Targets are ready and available on request

for any requirement please apply to : giorgio.acerboni@idpaineurope.eu
